Proposed Consent Decree, Clean Air Act Citizen Suit

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of proposed consent decree; request for public comment.

SUMMARY: In accordance with the Clean Air Act, as amended (CAA or the Act), notice is given of a proposed consent decree in *Environmental Integrity Project, et al. v. Regan*, No. 1:22-cv-2243 (D.D.C.). On July 29, 2022, Plaintiffs Environmental Integrity Project, Chesapeake Climate Action Network, and Sierra Club filed a complaint in the United States District Court for the District of Columbia, alleging that the Environmental Protection Agency (EPA or the Agency) failed to perform certain non-discretionary duties in accordance with the Act to timely review and, if necessary, revise, the methods (“emission factors”) used to estimate the quantity of emissions of carbon monoxide, volatile organic compounds, and oxides of nitrogen for municipal solid waste landfills. EPA is providing notice of this proposed consent decree, which would resolve all claims in the case by establishing deadlines for EPA to review and, if necessary, revise these emission factors for municipal solid waste landfills.

II. Additional Information about the Proposed Consent Decree

On July 29, 2022, Plaintiffs Environmental Integrity Project, Chesapeake Climate Action Network, and Sierra Club filed a complaint in the United States District Court for the District of Columbia, alleging that the Environmental Protection Agency failed to perform certain non-discretionary duties in accordance with the Act to timely review and, if necessary, revise, the

methods (“emission factors”) used to estimate the quantity of emissions of carbon monoxide, volatile organic compounds, and oxides of nitrogen under CAA section 130, 42 U.S.C. section 7430, for municipal solid waste landfills. The proposed consent decree would establish deadlines for EPA to review and, if necessary, revise these emission factors for municipal solid waste landfills.

EPA is agreeing to issue draft revisions to these emission factors (or issue a draft determination that revision is not necessary) by January 15, 2024. EPA is also agreeing to issue final revisions to the emission factors (or issue a final determination that revision is not necessary) by August 15, 2024. EPA will update its AP-42 website, where EPA maintains its Compilation of Air Pollutant Emission Factors, with the emission factors (or determinations) for municipal solid waste landfills.

In accordance with section 113(g) of the CAA, for a period of thirty (30) days following the date of publication of this document, the Agency will accept written comments relating to the proposed consent decree. EPA or the Department of Justice may withdraw or withhold consent to the proposed consent decree if the comments disclose facts or considerations that indicate that such consent is inappropriate, improper, inadequate, or inconsistent with the requirements of the Act.

Any identifying or contact information provided in the body of a comment will be included as part of the comment that is placed in the official public docket and made available in EPA's electronic public docket. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment.
